PERSONAL & CLIENT WORK PORTFOLIO 2022

Extended Package

Single Artwork.

Custom Spotify Artist Banner.

A custom **Spotify banner** was created to promote the song both before and after it was released. The artwork was then animated to be used as the **Spotify Canvas** (a 7 second looping clip that appears on the listeners screen), and as further promotional content for social media. Video format content catches and keeps the attention of the audience, whilst also increasing the reach of the project.

The *Extended Package* includes:

- **Cover artwork** (3000x3000px, 300dpi)
- **Social media package** (Banners, Vertical Format Content, etc.)
- **Animated cover artwork and Spotify Canvas***
- **Cover artwork compatible with all streaming platforms**
- **3D mockup**

*Depending on the artwork, the amount of animation possible may be limited.
